Hello Aarti,

We're thrilled you want to explore Robotic Process Automation (RPA). We invite you to install the UiPath Academic Alliance Edition Studio 2021.10 by following the steps below.

Step 1. **Important** - Follow the step-by-step instructions thoroughly: [UiPath Academic Alliance Edition Installation Guide](#)

Step 2. Download the newest* software version: [UiPath Academic Alliance Studio](#) 2021.10 (it includes StudioX and Development Robot)

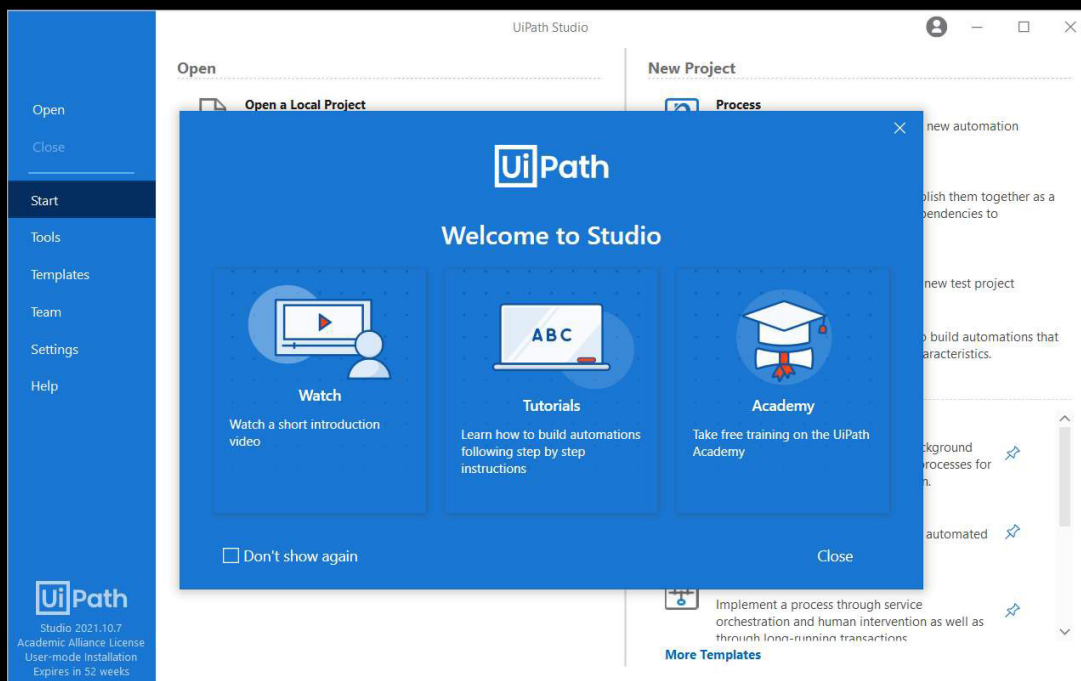

**should you need the older 20.10 version, please download it from [here](#).*

Step 3. Activate the product with your unique license code: 4076-7336-2415-6440

We look forward to continuing to support you in your RPA journey.

UiPath

Studio 2021.10.7
Academic Alliance License
User-mode Installation
Expires in 52 weeks

Open

Open a Local Project
Navigate and open an existing project

Clone or Check Out
Open from source control repositories like GIT, TFS or SVN

New Project

Process
Start with a blank project to design a new automation process.

Library
Create reusable components and publish them together as a library. Libraries can be added as dependencies to automation processes.

Test Automation
Start with a blank project to create a new test project

Template
Create a template that you can use to build automations that have a set of predefined common characteristics.

New from Template

Background Process
Create a process that starts in the Background and can run concurrently with other processes for as long as it doesn't use UI interaction.

Mobile Testing Project
Create a project for your mobile app automated test cases

Orchestration Process
Implement a process through service orchestration and human intervention as well as through long-running transactions
